

REPORT ON THE VISIT OF LUKE COMMISSION
COMPASSIONATE MEDICINE TEAM ON THE
27th SEPTEMBER 2008 AT SIHHOHHWENI -
MBEKELWENI IN MANZINI REGION

BY SAMUEL M. THWALA - MEMBER OF
SIBUSISWENI NAZARENE CHURCH AND ALSO THE
CHAIRMAN OF COMMUNITY POLICE.

- ON BEHALF:

The above team met the rural community which consisted of children, women, men and the youth who came in large numbers to first receive the WORD OF GOD as well as clothing for children and medicine for ^{various} ~~various~~ sicknesses to the patients.

APPRECIATION: many patients including the leaders of the community came to the activity and received medication and blood testing. The medication included deworming programme for all patients. Most patients had no money to go to hospital and therefore were very appreciative of the assistance. The community was very thankful in the sense that the help was coming to them for the second time in the same area. The first time was in 2006 where patients were given Bibles and shown the film about the death of JESUS CHRIST.

Please convey our sincere gratitude to the Headquarters of the Luke Commission and hope that it is not for the last time but will continue to sympathise with the poverty stricken families with full strength.
