Re: Appreciation For Fee Medication

On the behalf of the Evusweni Community I want to say thank you very much for the great job you have done by bringing medication closer to the people of which most of them are very poor and nobody takes care of them.

We do not have enough words to say thank you , and we don't have anything give in our hands to give you to show our appreciation to you , but anyway thank you – The Lord is your rewarder.

From the different people that were treated , they are very excited because they were treated to their expectations , they were impressed .

Please pass our appreciation to your children and rest of team for the sacrifice they made. Please encourage them , the Lord is keeping an eye in every thing they do for his glory so they must not give up.

It is our prayer that the Lord may increase you in wisdom , strength ,finances e . t . c.

I like your spirit caring for the uncared for ; the less privileged and unrecognized in society.

May the Almighty God richly bless you for serving him through the needy and sick people.

Yours in Christ

Blessing . P . Mabuza
